## CANADIAN CHESS PROBLEMS

[C. F. STUBBS, 1890]

Dr. Ryall - J. Henderson

White announced mate in seven moves.

## TABLE OF CONTENTS

[^0]
## PREFACE TO ELECTRONICAL EDITION

This volume is an electronic edition of Canadian Chess Problems, published 1890 by C. F. Stubbs, St. John, N.B., Canada and printed by Ellis, Robertson \& Co at the "Globe Press."

The important change introduced in this edition is the translation of the solutions into algebraic form; the remaining changes are only editorial. The following printing errors in the original have been corrected:

Problem 38: White K on H7 changed to White Q.
Problem 202: Black to play, not White

All problems have been tested for serious errors, which have been indicated in the stipulation line as follows:
[ $\dagger$ ] A problem without a solution in the stipulated nr of moves
[*] A problem with several solutions
[§] A problem with a shorter solution than stipulated
Further details, and an occasional suggestion for correction, can be found in the solution section.
